

# Immunization Requirements 2003-2004

revised 2/03

Immunizations	Pre-K	K	1	2	3	4	5	6	7	8	9	10	11	12
♦ 1 <sup>st</sup> MMR (one shot)	X	X	X	X	X	X	X	X	X	X	X	X	X	X
♦♦ 2 <sup>nd</sup> Measles (MMR preferred)		X	X	X	X	X	X	X	X	X	X	X	X	X
♦♦♦ POLIO (4 doses)	♦♦♦	X	X	X	X	X	X	X	X	X	X	X	X	X
♦♦♦ DPT/DTaP (5 shots)	♦♦♦	X	X	X	X	X	X	X	X	X	X	X	X	X
Td Booster (1 shot within 5 years)									X	X	X	X	X	X
Hepatitis B Series (3 shots)	X	X	X	X	X	X	X		X	X	X	X	X	X
♦♦♦♦ Hib	X													
* Varicella (vaccine or signed proof of disease)	X	X	X	X										

X – denotes required immunizations per grade level

Students that are not in compliance with immunization laws are required to be excluded from school.

♦ Measles, mumps and rubella (MMR) must have been given on or after the child's first birthday.

Two doses of measles vaccine is required (MMR preferred). The two doses of measles vaccine must be given at least 28 days apart and the first vaccine must be given on or after the first birthday.

♦ If third dose was given on or after the fourth birthday, a fourth dose is not required.

♦♦ If the fourth dose was given on or after the fourth birthday, a fifth dose is not required.

Pre-K students must have started the series, and have a current immunization certificate. **Temporary Medical Exemption (DOE code 2) must be filled in with a future expiration date. If date has passed, or is not filled in, certificate is not valid, and student should not be in school. This applies to all Temporary Medical Exemptions, regardless of grade level.**

Schools are to track students who enter on Temporary Medical Exemption, and exclude those students when certificates expire, if a new certificate has not been presented.

♦♦♦♦ Number of doses varies according to age. If child was over 15 months when first vaccine was given only 1 dose will be given.

\* Varicella must have been given on or after child's first birthday.

Religious exemptions are allowed. They must be obtained at a Health Department clinic. Electronic transfer of immunization dates may be used; however, all immunization dates must be transferred, not just a notation that there is a certificate of immunization.

*The above information is a guideline to be used as a quick reference for schools and non-medical personnel. For complete medical information, refer to a physician or the "Immunization Guidelines for School and Childcare Centers"*
